Instrumentation

2 Trumpets in C
Flugelhorn
4 Horns
2 Tenor Trombones
Bass Trombone
Tuba

Bass Drum

The original wind ensemble version of “Hymn to a Blue Hour” was commissioned by Mesa State College. This version for symphonic brass was commissioned by the brass of the San Francisco Symphony. It received its world premiere on March 6, 2022, with the San Francisco Symphony brass and percussion, conducted by Brad Hogarth, at Davies Hall, San Francisco, California.
Program Note

The blue hour is an oft-poeticized moment of the day – a lingering twilight that halos the sky after sundown but before complete darkness sets in. It is a time of day known for its romantic, spiritual, and ethereal connotations, and this magical moment has frequently inspired artists to attempt to capture its remarkable essence. This is the same essence that inhabits the sonic world of John Mackey’s Hymn to a Blue Hour.

Programmatic content aside, the title itself contains two strongly suggestive implications – first, the notion of hymnody, which implies a transcendent and perhaps even sacred tone; and second, the color blue, which has an inexorable tie to American music. Certainly Hymn to a Blue Hour is not directly influenced by the blues, per se, but there is frequently throughout the piece a sense of nostalgic remorse and longing – an overwhelming sadness that is the same as the typically morose jazz form. Blue also has a strong affiliation with nobility, authority, and calmness. All of these notions are woven into the fabric of the piece – perhaps a result of Mackey using what was, for him, an unconventional compositional method:

"I almost never write music ‘at the piano’ because I don’t have any piano technique. I can find chords, but I play piano like a bad typist types: badly. If I write the music using an instrument where I can barely get by, the result will be very different than if I sit at the computer and just throw a zillion notes at my sample library, all of which will be executed perfectly and at any dynamic level I ask. We spent the summer at an apartment in New York that had a nice upright piano. I didn’t have a piano at home at the time – only a digital keyboard – and it was very different to sit and write at a real piano with real pedals and a real action, and to do so in the middle of one of the most exciting and energetic (and loud) cities in America. The result – partially thanks to my lack of piano technique, and partially, I suspect, from a subconscious need to balance the noise and relentless energy of the city surrounding me at the time – is much simpler and lyrical music than I typically write."

Though not composed as a companion work to his earlier Aurora Awakes, Hymn to a Blue Hour strikes at many of the same chords, only in a sort of programmatic inversion. While Aurora Awakes deals with the emergence of light from darkness, Hymn to a Blue Hour is thematically linked to the moments just after sundown – perhaps even representing the same moment a half a world away. The opening slow section of Aurora Awakes does share some similar harmonic content, and the yearning within the melodic brushstrokes seem to be cast in the same light.

The piece is composed largely from three recurring motives – first, a cascade of falling thirds; second, a stepwise descent that provides a musical sigh; and third, the descent’s reverse: an ascent that imbues hopeful optimism. From the basic framework of these motives stated at the outset of the work, a beautiful solo emerges from the flugelhorn – creating a texture spun together into a pillowy blanket of sound, reminiscent of similar constructions elicited by great American melodists of the 20th century, such as Samuel Barber. This melody superimposes a sensation of joy over the otherwise “blue” emotive context – a melodic line that over a long period of time spins the work to a point of catharsis. In this climactic moment, the colors are at their brightest, enveloping their surroundings with an angelic glow. Alas, as is the case with the magical blue hour, the moment cannot last for long, and just as steadily as they arrived, the colors dissipate into the encroaching darkness, eventually succumbing at the work’s conclusion with a sense of peaceful repose.
